

# {AI} in UI

Integrate AI into your React Application

# Andrej Böttcher

Principal Engineer @WTF

# Agenda

- Why AI in UI? 🤔
- How to get started 🔧
- Demo 🎉
- Takeaways 🎓
- Q&A 💬

# Why AI in UI? 🤔

# How to get started 🛠

```
npx assistant-ui@latest create
```

```
npm install @ai-sdk/anthropic
```

# Demo A

Enough talking, let's look at some code!

# Takeaways

- Everything moves **HYPER** fast
- **Nothing** is **stable**
- You need to be able to adapt even quicker than before
- *New technologies come and go,* but the core concepts remain  
(Tools, MCP, RAG, etc.)

# Things to check out

- Assistant UI

As seen in the demo

- Tool UI

Continuation of Assistant UI

- Mastra AI

Build your own AI agents

- Transformers.js

Run models in your browser

You can find this slide  
deck and code here
